Floss, Pik, and Flow for Oral Hygiene

Interdental Brushes, Picks, and Irrigator

Denbur, Inc.
Oral Hygiene Division

EZ-Floss, EZ-Pik, EZ-Flow

EZ-Floss

Extra Narrow

To be used to reach tight interdental spaces. Flexible design helps remove the smallest food particles in difficult to reach spaces. Medical grade fiber tip gently scrubs between teeth to remove food particles and plaque buildup. Wire free design is friendly to the gum line. Made with FDA approved materials.

40 EZ-Floss,
 1 EZ-Shake Dispenser,
 1 EZ-Grip,
 10 packs per display box.
 Article # 356 041

Narrow

Flexible tip helps remove small and large food particles in difficult to reach spaces while stimulating the gum line. Medical grade fiber tip gently scrubs teeth to remove food particles and plaque buildup. Wire free design is friendly to the gum line. Made with FDA approved materials.

40 EZ-Floss,
 1 EZ-Shake Dispenser,
 1 EZ-Grip,
 10 packs per display box
 Article # 356 043

Wide

Fiber coated on 3 sides, the upper and each side. The gum line side is fiberless. Friendly to the gum, best for those with sensitive gum line. Stiff neck is adjustable to 90 degrees. Knife shaped tip helps dislodge trapped food particles. Wire free design is friendly to the gum line. Made with FDA approved materials.

40 EZ-Floss,
