

DENBUR

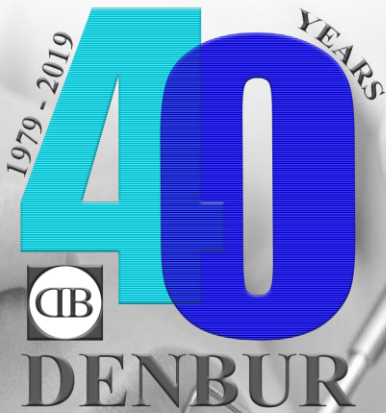

Magic-Brush®

Features

Exclusive double bending applicator. Dual indentations allow simultaneous or independent bending on the neck and handle. Locking notches enable greater controlled application. Head composed of micro non-lint fiber tips. Solutions are held in suspension in non-dripping sphere until applied.

Uses

Cavity Liners, Bonding Agents, Etchants, Disclosing Solutions, Haemostatic, Cements.

Double Bending Fiber Applicator

Short Bend notch indentation allows for easy bending and creates a locking notch once bent

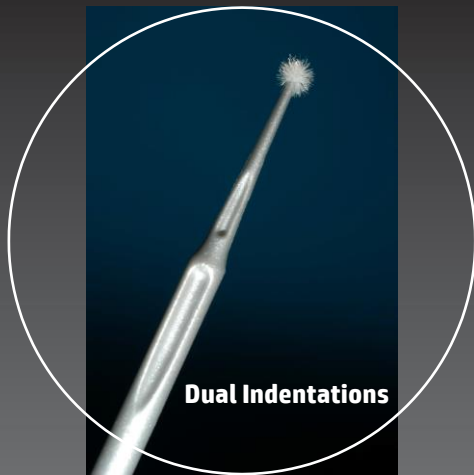

Long Bend notch indentation allows for easy bending and creates a locking notch once bent

Double Bend allows for greater access in the lingual. Only fiberbrush applicator with this function on the market
