

DENBUR

Maxi-Brush[®]

Features

Disposable applicator that facilitates access to narrow extended and confined spaces. Dual indentations allow simultaneous or independent bending on neck and handle. Locking notches enable greater controlled application.

Uses

Post preparation, Onlay-inlay, Porcelain Veneer Prep

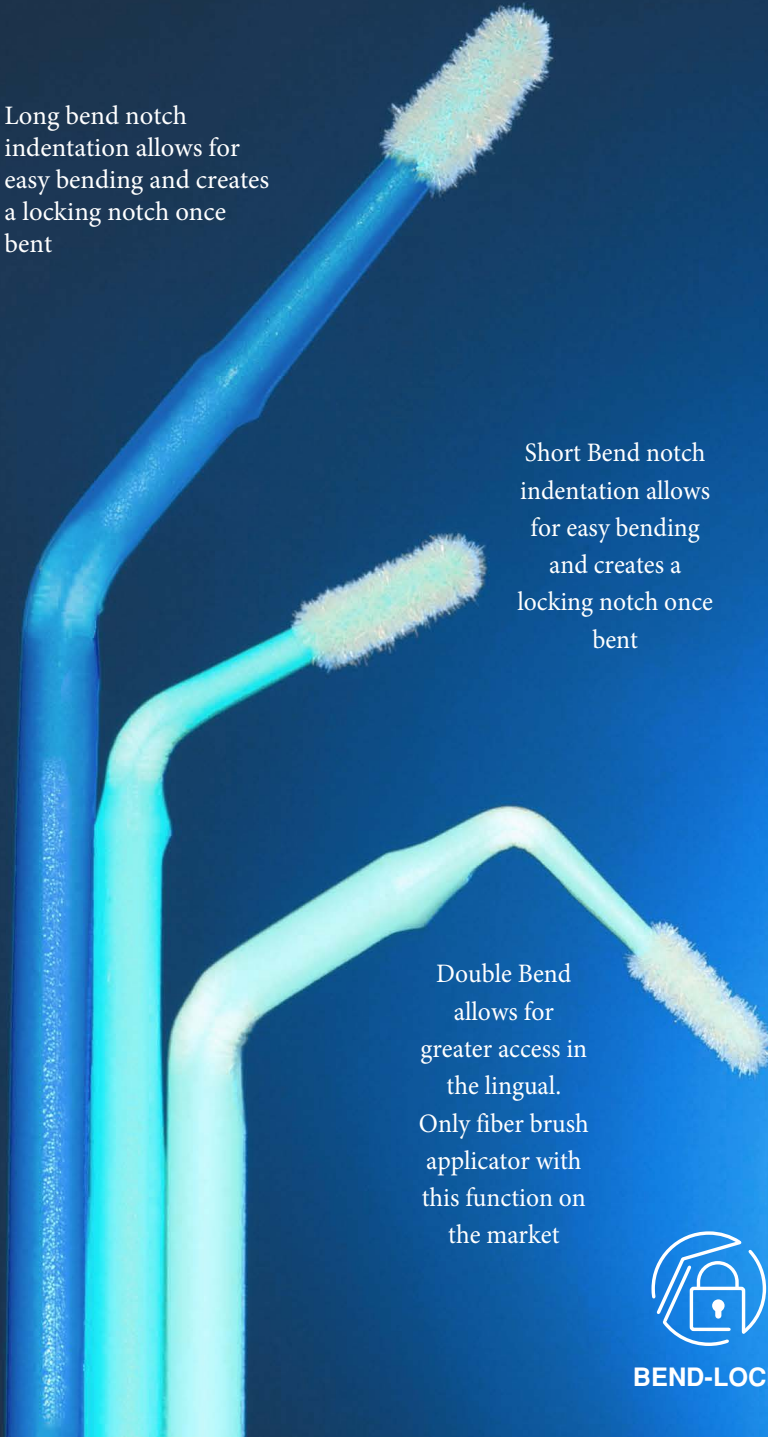

Double Bending Fiber Applicator

Long bend notch indentation allows for easy bending and creates a locking notch once bent

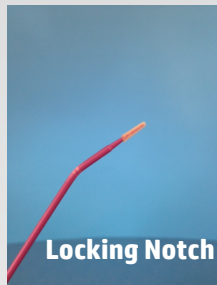

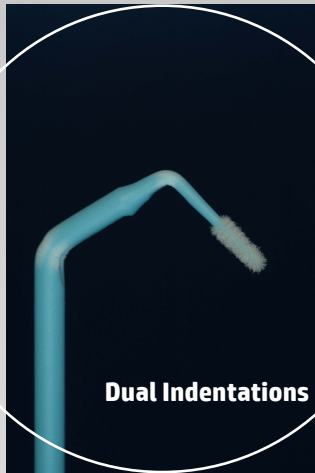

Short Bend notch indentation allows for easy bending and creates a locking notch once bent

Double Bend allows for greater access in the lingual. Only fiber brush applicator with this function on the market
